

Film and sheet extrusion CSX produces circular plastic films and sheets in any size and colour desired. We are capable of supplying different structures (smooth / embossed /diamond) and / or building up sheets and films through mono-/ di- / tri extrusion. We prefer to use post-industrial raw materials, which have been upcycled and/ or bio based materials based on clean and safe nutrients.

Our standard delivery program:

Material		LDPE	MDPE	HDPE	HMPE	PP	HIPS	TPS	PLA
thickness 0.75mm - 2mm	film width in mm	600	600	600	600	600	600	600	600
thickness > 2mm - 10mm	sheet width in mm	1200	1200	1200	1200	1200	1200	1200	1200
thickness 0.75mm - 2mm	roll length in m'	25-50	25-50	25-50	25-50	25-50	25-50	25-50	25-50
thickness > 2mm - 10mm	sheet length in m'	1-6	1-6	1-6	1-6	1-6	1-6	1-6	1-6
colour	pigment	each	each	each	each	each	each	each	each

*special dimensions on request

Film from 0.75mm up to 2mm thickness

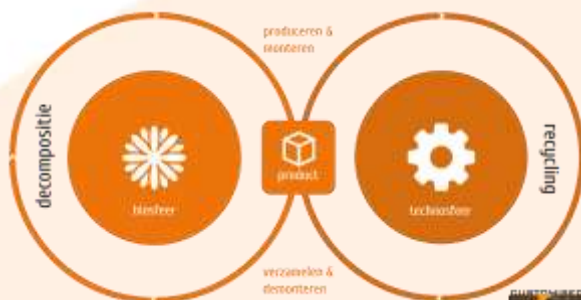

On our special extrusion line we produce i.e. film and sheets for thermoforming applications.

Sheets > 2mm up to 10mm thickness

We are also able to produce decorative sheet material for interior- and exterior applications.

Circular Behaviour

CSX is one of the leading companies regarding the use and manufacturing of so-called **Circular Materials**. Sustainability is far more than energy saving. CSX is continuously striving to upcycle processed materials in a **Technical- and / or Biological Loop**.

Customised Sheet Xtrusion

Our Expertise

- ❖ Addition of colourants, UV stabilizers, flame retardants and other (organic) additives
- ❖ Antislip top layer optional
- ❖ Embossed structures optional
- ❖ Composite sheets with (natural) fibre reinforcements

Application Examples

- ❖ Camp shedding
- ❖ Edge retaining
- ❖ Tree water savers
- ❖ Anti slip foils
- ❖ Breakable coins
- ❖ Naturel composite decorative sheets
- ❖ Tree bark protectors
- ❖ Tree trunk protectors
- ❖ Fauna panels
- ❖ Root barriers
- ❖ Thermoforming flat films and sheets
